Report of Surgeon of Police.

Col. William Young,

St. Louis, Mo., April 1, 1912,

Chief of Police.

Sir:—I have the honor to submit herewith the annual report of the Medical Department for the year ending March 30, 1912, with the number of cases of each disease and the days lost on account of each. Diseases of exposure such as influenza, bronchitis, etc., are the greatest in number, though the time lost from various injuries exceeds that of any other cause. The least amount of time lost was in June (604 days), the greatest in March (1331 days). The total amount of time lost exceeds that of the previous year by 2488 days, a difference evidently due to the severe and prolonged winter.

Respectfully,

H. M. MOORE,

Chief Surgeon of Police.
